

Throughout the pandemic we are proud that we have diligently followed the Government guidelines. Customers and staff have been fantastically supportive and expressed lots of appreciation remarks. Thank you. We gave lots of thought to what we would and wouldn't do from Monday 19th July.

Our Policy, post 19th July.

We have decided that nobody will need to wear a mask in the restaurant from Monday 19th.

For the record, we support wearing masks on public transport and anywhere people are obliged to visit. But we are aware that we have freedom of choice when it comes to going to a restaurant. Currently, most occupants are not wearing a mask most of the time whilst in a restaurant, so dropping them completely is not a big change.

Keeping customers well and as comfortable at Banner's is as important as ever and you should know how we will keep on doing this.

Fresh air Fresh air!

Did you know we have always had a superb Extraction System - so efficient that when all our doors and windows are closed it sucks the windows open! This will always be on full speed.

For a while, we will keep some of our funky tinted screens in place in the more confined area of the restaurant whilst we gauge how you feel about keeping/getting rid of...

Staff will continue with temperature checks when they arrive at work.

We have supplied employees with Lateral Flow Tests so that they can test themselves regularly before work.

It's cool we now know how to make a QR code, but they have seriously had their day as a menu!

Can't wait to see you
